

DEAR PARENT: Visit GetInternet.gov today to check your family's eligibility for \$30 off your monthly internet bill and to sign up to save!

High-speed internet is a necessity – especially for students. That's why the Bipartisan Infrastructure Law created the Affordable Connectivity Program (ACP) to lower internet costs. ACP provides:

- Up to \$30/month off your household's internet bills (or \$75/month on Tribal lands), and
- A one-time \$100 discount off a laptop, tablet, or computer.

Many internet service providers across the country offer high-speed internet plans that are fully covered by ACP – so millions of families can now get high-speed internet without paying a dime.

Is my family eligible to save on our internet bill?

Tens of millions of U.S. households are eligible for ACP. You are eligible if any *one* of these applies:

- A member of your household participates in:
 - Free and Reduced-Price School Lunch or Breakfast Program
 - Includes Community Eligibility Provision schools (which serve meals at no cost to all students)
 - Supplemental Nutrition Assistance Program (SNAP)
 - Medicaid
 - Special Supplemental Nutrition Program for Women, Infants, and Children (WIC)
 - Supplemental Security Income (SSI)
 - Federal Public Housing Assistance
 - Veterans Pension and Survivors Benefit
 - Federal Pell Grant (current year)
 - Tribal assistance programs, including: Bureau of Indian Affairs General Assistance, Tribal Head Start (if meeting the relevant income qualifying standard), Tribal Temporary Assistance for Needy Families (Tribal TANF), Food Distribution Program on Indian Reservations
- Your household income is 200% of the Federal Poverty Guidelines or less (\$60,000 for a family of four), OR
- Your household qualifies for a participating provider's existing low-income plan.

How do I enroll?

- Step 1: Claim your ACP benefit by visiting GetInternet.gov to submit an application or to print out a mail-in application, contact a participating internet service provider, or call 877-384-2575 to learn more.
- Step 2: Contact a participating internet service provider to choose an internet plan.

Which providers offer fully covered plans?

Here are providers offering high-speed internet plans that are fully covered – so you have no out-of-pocket cost:
